

GHG teleconference : DmDw meeting 1 - minutes

Friday 11th January

Members:

Catharine Clark(RTTQA) Stephen Kry (IROC) David Followill (IROC) Ying Xiao (IROC) Tomas Kron(TROG) Jessica Lye (ACDS) Joerg Lehmann (TROG) Paige Taylor (IROC) Eduard Gershkevitch (ESTRO) Joanna Izewska(IAEA) Angelo Monti (EORTC) Enrico Clementel (EORTC) Jeff Michalski(IROC) Rebecca Howell (IROC) Jonathan Lee (RTTQA)

Apologies: ?

Item	Agenda	
1.	Apologies	
2.	<p>Introduction – aim of the group <i>Harmonise dose specification (eg dose to water, dose to medium) in clinical trials/audits world-wide</i></p> <p>Discussed that the opportunity here is to have multiple international groups endorse the same approach. Key goal of the sub-group is to produce a recommendation for the dose specification in clinical trials in terms of dose to medium/dose to water. If existing publication is suitable then could endorse that publication. This can then be presented to wider GHG group.</p>	
3.	<p>Recommendations for Dose specification in clinical trials/audits <i>What is currently recommended by each group?</i></p> <div style="text-align: center;">  <p>www.ijro.net/eng</p> </div> <p style="text-align: center;">BRIEF REPORT</p> <p style="text-align: center;">Dose Specification for NRG Radiation Therapy Trials</p> <p style="text-align: center;">David J. Gladstone, Sc.D.,* Stephen F. Kry, Ph.D.,¹ Ying Xiao, Ph.D., F.A.A.P.M.,² and Indrin J. Chetty, Ph.D., F.A.A.P.M.³</p> <div style="text-align: center;">  </div> <p>IROC - TROG – follows above recommendation RTTQA – did not yet recommend specifically</p>	
5.	<p>Dose to water or dose to muscle <i>Should we apply algorithm dependent correction?</i></p> <p>Discussion on the history of dose to muscle specification in the US.</p>	
6.	AOB	

	Next meeting face to face at ESTRO.
